SUSTAINABILITY

We create professional-grade gear to help people stay and feel alive in the harshest environments in the world. Ever since Helly Hansen was founded by sea captain Helly Juell Hansen in 1877, we have developed high-quality gear to protect people at sea and in the mountains, and we have an obligation to protect these environments.

After 140+ years in business, we know that long-term success can only be achieved by respecting, protecting and promoting ethical values, human rights and the environment. We are committed to continue advocating for the responsible use and enjoyment of the oceans, mountains and the greater outdoors. By applying a holistic and scientific approach to all our decisions, we strive to ensure our actions support the possibility for people and the planet to thrive.

4 SUSTAINABILITY PILLARS

PLANET HEALTH

Our planet is facing enormous challenges with climate change, acidification of our oceans, water scarcity, biodiversity, water pollution and more. Helly Hansen knows that as a company, and as an industry, we have a role to play to turn the wheel around towards a positive transformation.

We must secure and apply best available technology to reduce our negative impact – and ensure we maintain the highest quality standards and measure our output.

RESPONSIBLE CONSUMPTION

Our natural resources are limited, and today we are over-consuming materials and other resources to the extent that humans would need 1,7 globes to support us.

We need to bring that down to one-planet consumption by implementing a circular mindset and approach to our products, applying materials with improved environmental profiles.

We make sure to never compromise on quality and always strive to make long-lasting products.

ENGAGE

Through collaboration and communication internally and externally, we see that goals can be met, and targets can be reached. Inspiring and supporting people to get outside exploring nature strengthens the feeling of belonging to our planet, and wanting to protect it.

Focus will therefore be on building strong relationships with professional partners, volunteer groups and customers wanting to make a positive impact.

LIVELIHOOD & LABOR RIGHTS

Helly Hansen has a clear philosophy that close engagements with our partners and long-term relationships lead to greater job satisfaction and the feeling of empowerment amongst the people working within our supply chain.

We will continue to work towards proper living wages, workplace safety and protection against discrimination. Focus will be on social programs where dialogue and improvement plans are put into place.

SS24 SUSTAINABILITY

MEMBERSHIP COMMITMENTS

Since 2003, Helly Hansen annually reports on status, initiatives, progress and results of our ethical trade efforts.

Helly Hansen uses the Higg Index to help measure & improve our environmental impact in the supply chain.

In 2021, Helly Hansen joined the OIA Climate Action Corps; the outdoor industry's collaborative model to lead on climate action to reduce industry-wide greenhouse gas (GHG) emissions in accordance with the IPCC Guidelines

Members since 2008, Helly Hansen follows this holistic approach to provide safer and more sustainable supply chain management. 7 of our top 10 fabric suppliers are bluesign® members.

Since its founding in 2017, Helly Hansen has been a member of The Microfibre Consortium, collaborating with industry partners to reduce and eliminate fiber fragmentation pollution.

PRODUCT HIGHLIGHTS

lifa infinity pro

THE NEXT LEVEL OF **RESPONSIBLE WATERPROOF/BREATHABLE TECHNOLOGY** WITHOUT ANY ADDED CHEMICAL TREATMENTS

OCEAN BOUND RECYCLED MATERIALS

MADE FROM DISCARDED AND MISMANAGED WASTE MATERIALS CLOSE TO COASTAL AREAS AT RISK OF OCEAN PLASTIC POLLUTION

SOLUTION DYED SINCE THE 1970S

ALL DOWN IS **RDS CERTIFIED**

OUR WOOL IS EITHER **ZQ OR RWS CERTIFIED**

RECYCLED SYNTHETICS MADE FROM EXISTING MATERIALS

Target to have minimum 50% of our synthetics from recycled sources by 2025

ALL HANGTAGS ARE MADE WITH **FSC PAPER***

*FSC® certified paper is paper that has been harvested in a responsible manner.

BY USING **SOLUTION DYED** FABRICS, IN 2022 WE SAVED AN ESTIMATED 8.8 MILLION LITERS OF WATER, OVER 150 TONS OF CHEMICAL WASTE AND ALMOST 500 TONS OF CO₂

NO ANTIBACTERIALS ARE USED IN OUR APPAREL. WE USE ALTERNATIVE ANTI-ODOR TREATMENTS, SUCH AS ACTIVE CARBON FROM COFFEE GROUNDS

25% OF OUR SS24 STYLES ARE BLUESIGN APPROVED

By volume, over 70% of our fabrics are bluesign approved

ALL HELLY HANSEN APPAREL RETAIL BAGS ARE MADE WITH **RECYCLED PAPER**

BETTER MATERIALS

PFC-FREE DWR TREATMENT A BETTER CHOICE FOR THE ENVIRONMENT

95% of our SS24 DWR-treated styles are PFC-free

OUR PREFERRED CHOICE OF COTTON IS **ORGANIC COTTON**, GROWN FROM NON-GMO SEEDS WITHOUT THE USE OF ANY SYNTHETIC AGRICULTURAL CHEMICALS

50% of our SS24 styles use organic cotton

TRUSTED BY PROFESSIONALS

ODIN THE PROFESSIONAL

Inspired by Norse mythology, the Odin series is developed with and tested by Search & Rescue and mountain guides around the world. We believe it's the most purposeful weather protection available for the mortal man. Tested by the mountains, trusted by professionals.

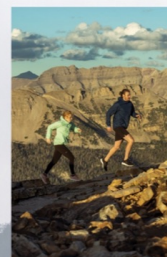

VERGLAS CORE HIKER

The essential collection for the classic mountain lover. Technical materials are thoughtfully combined with versatile design solutions to create great quality mountain pieces that can be enjoyed for years of adventure.

VELOCITY OUTDOOR ACTIVE

The Velocity collection aims to help you explore off the beaten track. With a focus on lightweight, semi-technical and versatile materials, the products are designed to keep you comfortable throughout every adventure.

OUTDOOR SPORTS TRAIL RUNNING

For those who want to pick up the pace and explore varied trails and terrain, this collection was developed to keep you agile, dry and comfortable on short or long distances. Featuring running-specific fabrics and fits, the designs are lightweight and breathable, built for any weather.

FJORD TIL FJELL OUTDOOR LIFESTYLE

Inspired by the Norwegian outdoor lifestyle, the Fjord Til Fjell Collection includes multipurpose, lightweight and technical gear designed for adventure and travel.

DEL: 7 MARS

A woman is seen from behind, standing on a hillside. She is wearing a white, textured, long-sleeved sweater and a dark-colored baseball cap with a gold-colored buckle. Her hair is tied back in a ponytail. The background shows a vast valley with a winding road and distant hills, all bathed in the warm, golden light of a sunset or sunrise. The sky is a mix of soft pinks, oranges, and blues.

- Cross concept merch on key styles

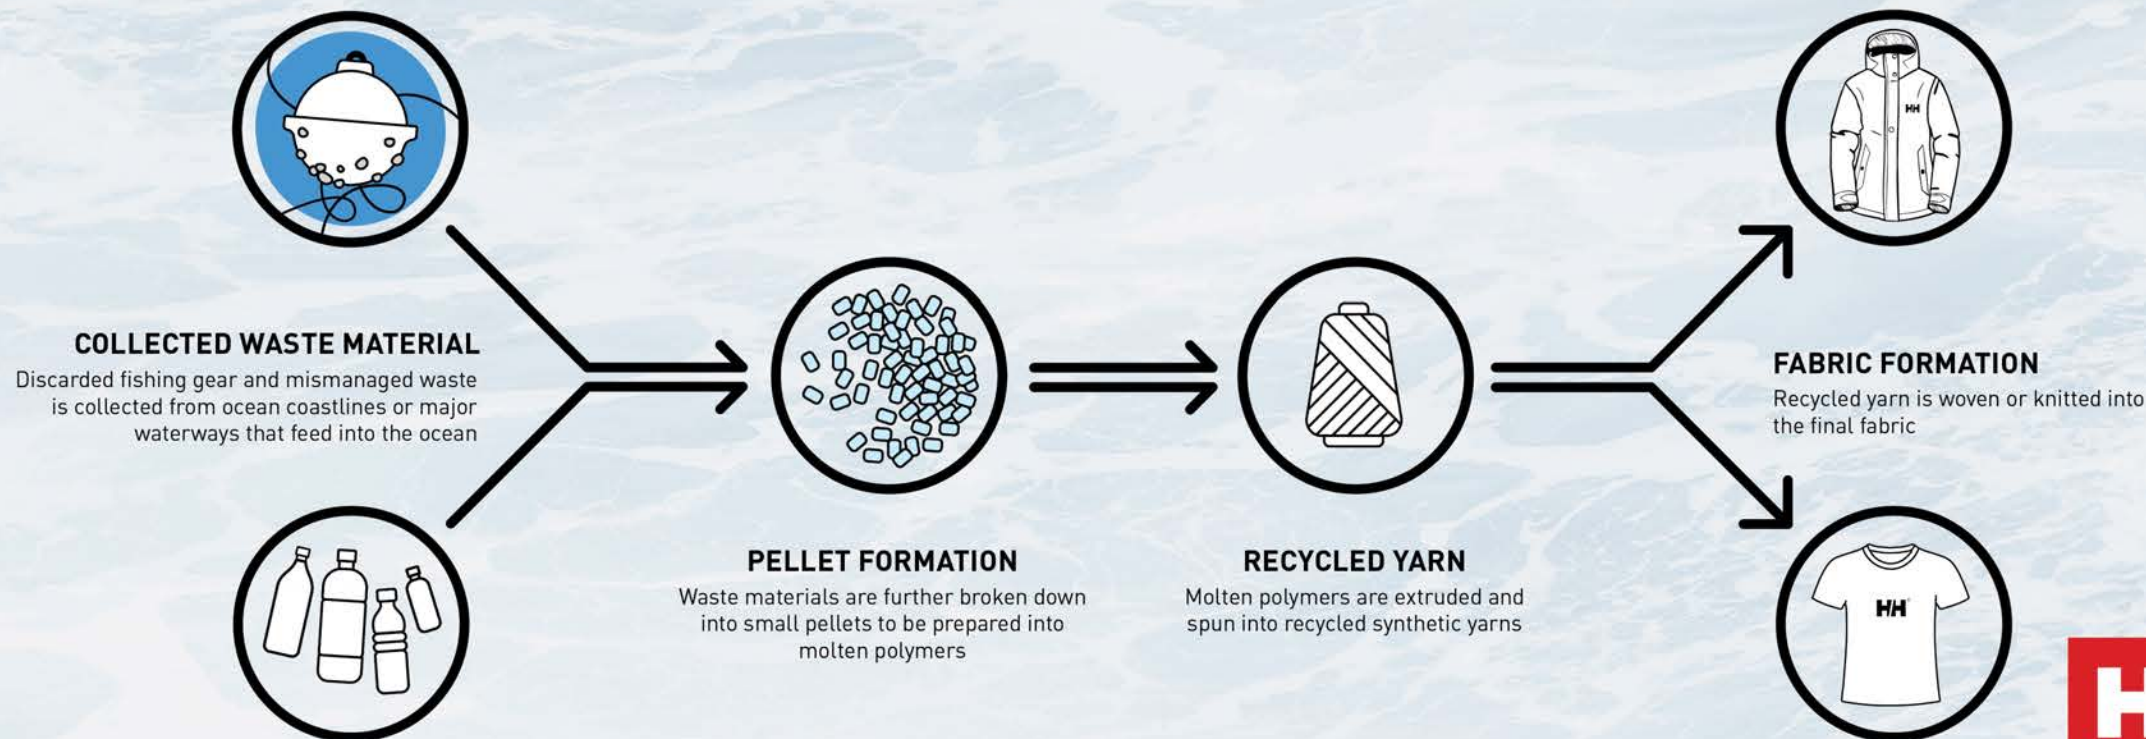

-

WHAT IS OCEAN BOUND MATERIAL?

Some of our products contain high-quality Ocean Bound recycled material and are made with a minimum of 50% recycled content in total. Recycled materials reduce our dependence on petroleum and lessen CO2 emissions. Ocean Bound material is made from plastic that is sourced within 50km of a coastline or main waterway in regions at risk of plastic pollution.

By collecting plastic at this stage, we prevent it from polluting our waterways and harming wildlife, and recycle it to use as a component across a range of our collections instead. Currently, our Ocean Bound materials fall into two streams – polyamide and polyester.

 TRUSTED BY PROFESSIONALS

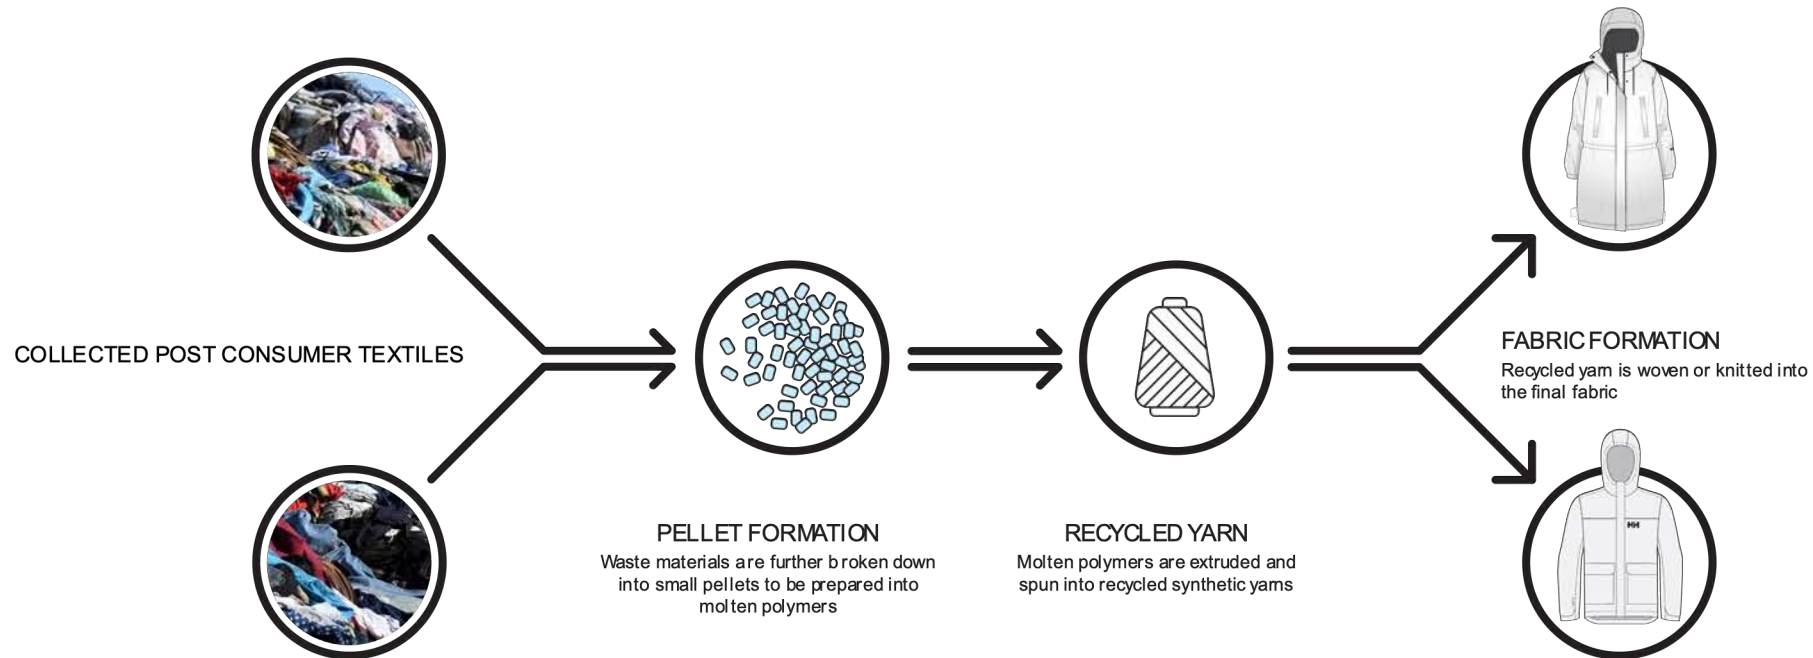

ALIVE

WHAT IS TEXTILE - TO -TEXTILE RECYCLING?

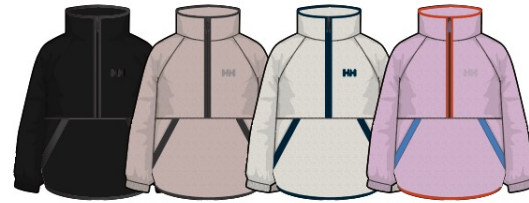

We are introducing garments that are made in fabric recycled from post- consumer textiles. With this initiative we reduce the amount of textiles ending their days on the landfill

We believe that textile-to-textile recycling is the future for our industry, and with this concept we want to create a demand for fabrics made from recycled textiles and contribute towards this future

PLAY IT BRIGHT

- This years Icon story is a play around with bright colors
- Can also easily turn over to a classic story, embracing the blues and the new fresh Flame

TRUSTED BY PROFESSIONALS

NORDIC SUNSET

- A modern and Scandinavian take on pink and peach
- A true feminine story with fresh and athletic brights together with the more muted Pink Cloud and grounded in Black

TRUSTED BY PROFESSIONALS

BLACK & WHITE

- As for every season we have a big variation of black & white

TRUSTED BY
PROFESSIONALS

URBAN GREENS BLUE MERGE

- A new take on the Urban Greens. Lav Green and Light Lav together with Ultra Blue and Bright Blue gives a fresh and athletic look for summer

TRUSTED BY
PROFESSIONALS

URBAN GREENS PEACH MERGE

- A new take on the Urban Greens. Miami Peach merged into the greens to give them a pop. Cream adds lightness and softness to the story

CLASSIC

- Our Classic story never changes too much, This season it is renewed by Flame, a bright orangy red color. The classics Navy, Essential Yellow and Khaki can of course also be found in this story

A woman with long brown hair is wearing a bright orange, sleeveless, high-necked vest with a zipper down the front and a drawstring waist. She is standing in a modern, industrial-style building with a slanted wooden ceiling. The word "ACTIVE" is written in white, bold, sans-serif capital letters inside a white rectangular box that is centered over her chest.

A woman with long, wavy brown hair and blue eyes is standing on a boat deck. She is wearing a dark navy blue parka with a hood, a high collar, and two large front pockets with drawstring closures. Her hands are tucked into the pockets. The background shows a calm sea under a pale, overcast sky. A white metal railing is visible in the lower right corner.

NORDIC SUNRISE

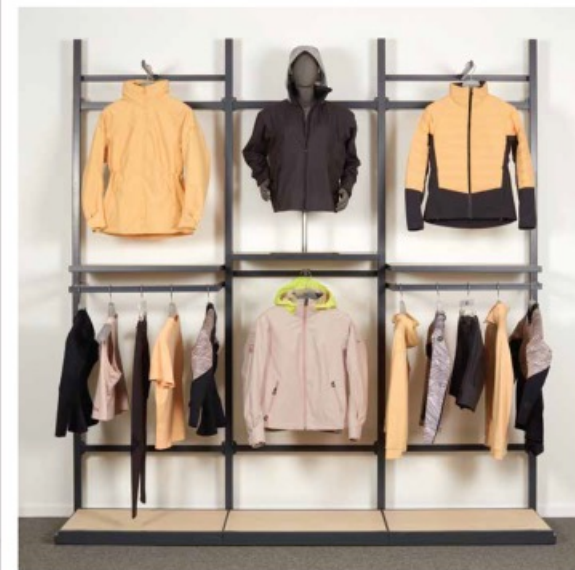

- Mainly used in a tonal matter, but Outdoor will bring in Dark Creek.
- Connecting with the caring culture with easygoing calm colors.
- Super feminine approach to inspire more women to get out in nature.

W CRUISING

W RACING

A woman with long blonde hair, wearing a black beanie with sunglasses perched on top, a bright orange and pink sailing jacket with a neon green hood, and matching pants, is on the deck of a sailboat. She is focused on handling a large white sail. The background shows a blue sea, a white mast, and a blue sky with scattered white clouds. The text 'SAILING ESSENTIALS' is overlaid in a white box in the center of the image.

PRODUCT

A woman with long brown hair, wearing a white button-down shirt and dark sunglasses, is sitting on the deck of a boat. She is looking out at the ocean with her hand resting on her forehead. The background is a vast, calm sea under a bright sky. The text 'MARINE LIFESTYLE' is overlaid in a white box in the center of the image.

"Construct our lightest rain jacket ever, with focus on breathability, reducing bulk and increasing visibility - aimed at the active urban consumer"

EXTREMELY LIGHTWEIGHT AND DURABLE

- Ultra-thin membrane fabric construction (200g/m²) allows for packability and breathability

MAXIMUM BREATHABILITY

- The breathability is double our competitors' (40000 g/m²/24h)
- An adjustable membrane allows for better air flow and breathability in all situations

MAXIMUM COMFORT

- Temperature sensitive pockets allow for better air flow and breathability
- Mechanical 2-way stretch

OPTIMAL PROTECTION

- Fully seam sealed and with YKK®

TRUSTED BY PROFESSIONALS

ALIVE SINCE / 1877

A man with long hair tied back, wearing a blue long-sleeved athletic top, black shorts, and black sneakers, stands on a rocky outcrop. He is looking off to the side. The background features a vast landscape with a dense forest of evergreen trees in the foreground and rolling hills or mountains in the distance under a clear blue sky. The word "VELOCITY" is overlaid in white capital letters within a white rectangular frame.

PRODUCT

002 WHITE 598 NAVY 853 GREY FOG

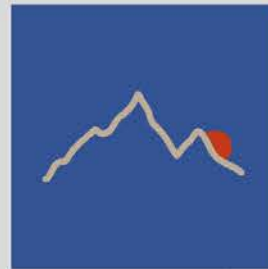

DEL: 7 MARS

A photograph of two men in a mountainous landscape. The man on the left has a beard and is wearing a blue plaid shirt over a white t-shirt with a mountain graphic and the text '8 HH 77 NORWAY'. The man on the right is wearing a grey beanie and a dark t-shirt. They are standing next to a tripod-mounted pot, with steam rising from it. The background shows misty mountains under a bright sky. A white rectangular box is overlaid on the image, containing the text 'FJORD TIL FJELL'.

PLAY IT BRIGHT

- A vibrant take on the classic colors by the return of hyper-bright primary colors
- Orange continues to expand into new hues and gives the pallet a sporty and energized vibe

ELDORADO

- Summer light pastels & soft greens offset by Cream, Pink Cloud and darker tones for a crisp look

BLACK & WHITE

- This seasons icon colorstory cross categories
- Grounded in nature and earthy colors
- Popped with Iced Matcha in Active

TRUSTED BY PROFESSIONALS

URBAN GREENS BLUE MERGE

- A new take on the Urban Greens. Cobalt 2.0 adds a new depth to the story and makes it fresh, summery and more athletic

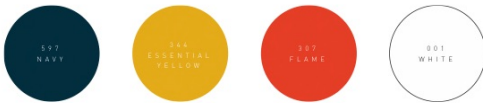

TRUSTED BY PROFESSIONALS

CLASSIC

- Our Classic story never changes too much, This season it is renewed by Flame, a bright orangy red color. The classics Navy, Essential Yellow and White can of course also be found in this story

PLAY

A young man with short dark hair is shown in profile, leaning against a textured grey wall. He is wearing a bright orange hooded jacket over a white t-shirt and dark pants. The jacket has black zippers and a pocket with a small logo. A white rectangular box with a thin border is superimposed over the center of the image, containing the word 'ACTIVE' in white capital letters. The background wall has some faint graffiti and a metal railing is visible in the lower left corner.

A man wearing a dark green hooded rain jacket is shown in a close-up, looking off to the side. The word "PROTECTION" is overlaid in a white rectangular box across the center of the image. The jacket has a blue logo on the lower right chest area. The background is a soft, out-of-focus landscape with a blue sky and a hint of water or a field.

ELDORADO

COLOR STORY

- Preservation of water gains even more momentum.
- Inspired by water and the golden refraction of the sun.
- Gold Rush is a new vibrant color to replace our earlier lime shades.

597 NAVY 980 EBONY

A close-up photograph of a man with a beard and brown hair, looking off to the side. He is wearing a dark blue button-down shirt over a light blue t-shirt. A pair of brown sunglasses is hanging from the neckline of his t-shirt. The background is a blurred view of the ocean. A white rectangular box is overlaid on the center of the image, containing the text 'MARINE LIFESTYLE'.

Biobased Derived EVA (Sugarcane)

WHAT IS BIOBASED EVA?

The 'ethanol' part of EVA is blended with ethanol derived from sugarcane instead of petrochemicals.

Sugarcane is a renewable resource and helps reduce the use of fossil fuels in the production of EVA FOAM

A woman in outdoor gear is hiking on a rocky mountain trail. She is wearing a light green jacket, olive green pants, a grey cap, and a backpack. The background features a vast mountain range with snow-capped peaks under a clear blue sky. A valley with a winding river and some buildings is visible in the distance. The text 'WOMEN'S / OUTDOOR' is overlaid in a white box on the left side of the image.

A high-angle photograph of a man and a woman walking on a long wooden pier that extends over a body of water. The man is on the left, wearing a dark navy blue parka and a black beanie. The woman is on the right, wearing a light green parka. The pier is made of weathered wooden planks, and the water is a dark, calm blue. A white rectangular frame is superimposed over the center of the image, containing the text 'WOMEN'S / LIFESTYLE' in a bold, white, sans-serif font.

A woman with blonde hair, wearing a white and red sailing jacket with a high-visibility yellow stripe and dark pants, is leaning over the side of a white sailboat. She is operating a winch, holding a rope. The boat is on the water, with white foam from the wake visible. The sky is blue with scattered white clouds. The text 'WOMEN'S / SAILING TECH' is overlaid in a white box in the center of the image.

A high-angle photograph of a man and a woman walking on a long wooden pier that extends over a body of water. The man is on the left, wearing a dark navy blue parka and a black beanie. The woman is on the right, wearing a light green parka. The pier is made of weathered wooden planks, and the water is a dark, calm blue. A white rectangular frame is superimposed over the center of the image, containing the text 'MEN'S / LIFESTYLE' in a bold, white, sans-serif font.

HELLY HANSEN TECH CLINIC

For the past 140 years Helly Hansen has been developing & testing its technologies together with professionals living and working in some of the world's toughest environments.

Their spirit, experiences and feedback are woven into every detail and every fiber of our garments. Ski patrollers, mountain professionals, offshore sailors, search and rescue professionals all rely on our products and technologies to keep them safe, protected and warm in some of the most challenging conditions known to man.

On the following pages you can read more about the technologies used in the gear that professionals know and trust.

HELLY TECH®

WATERPROOF. BREATHABLE. GUARANTEED.

Helly Tech® is constructed with Polymer Polyurethane (PU) based membranes and coating technologies. The PU membrane gives softness and stretch to the fabric, while the coating allows waterproofness and breathable qualities.

Helly Tech® is made either with Hydrophilic barrier membranes or Micro-porous membranes, depending on the end-use purpose of the fabric.

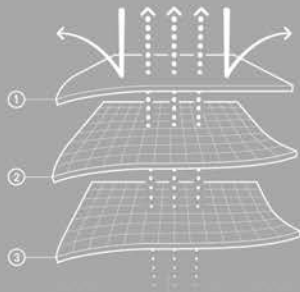

The Hydrophilic barrier works on an osmotic principle, keeping salts from entering and blocking the pores. The Micro-porous PU membranes are hydrophobic- "water hating" polymers. This membrane construction is responsible for the waterproofness of Helly Tech®, making the pores up to 20.000 times smaller than water droplets, while allowing breathability since the pores are up to 700 times larger than a water vapor molecule, allowing the evaporation of sweat and heat.

Helly Tech® is actually more than just a fabric – it is a combination of a DWR-treated outer fabric, a highly breathable and waterproof membrane, fully sealed seams and often a highly breathable inner fabric, mesh or lining.

The seams of the products are taped over with a waterproof ribbon and glue, preventing any water from entering the small gaps between the stitches of the seams.

HOW HELLY TECH® WORKS

1. DWR treated outer fabric is windproof and water-repellent
2. Waterproof and breathable membrane or coating
3. Highly breathable inner fabric, mesh or lining

THERE ARE NUMEROUS TYPES OF HELLY TECH® FABRICS. THE MAIN DIFFERENTIATOR IS THE NUMBER OF PLYS (OR LAYERS) THE FABRIC IS BUILT FROM.

HELLY TECH® PROFESSIONAL

Extremely waterproof and breathable designs and constructions. For highly aerobic, extremely wet or unusually long-lasting activities in extremely harsh conditions.

HELLY TECH® PERFORMANCE

Highly waterproof and extra breathable sport specific designs and constructions. For a wide range of high performance outdoor activities during highly challenging, changing and unpredictable weather conditions.

HELLY TECH® PROTECTION

Fully waterproof, windproof and breathable fabrics and constructions. For all situations and weather conditions where protection from the elements is needed.

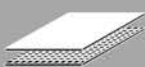

3 PLYCONSTRUCTION

Outer fabric + membrane and inner fabric bonded together for lightweight, quick drying and durability.

2,5 PLYCONSTRUCTION

Outer fabric + membrane or coating bonded together with protective print on the inside for extreme lightweight and packability

2 PLYCONSTRUCTION

Outer fabric + membrane or coating bonded together for breathable waterproofness, protected by inside lining or mesh adding warmth and comfort

lifa infinity pro™

WATERPROOF. BREATHABLE. RESPONSIBLE

The next level of responsible waterproof/breathable technology.

LIFA INFINITY PRO™ is Helly Hansen's most innovative and sustainable waterproof/breathable technology to date. Challenging the industry norm, this first-to-market technology pushes the envelope in apparel design, and through advanced textile engineering and development,

LIFA INFINITY PRO™ is truly unique and highly innovative.

WATERPROOF

BREATHABLE

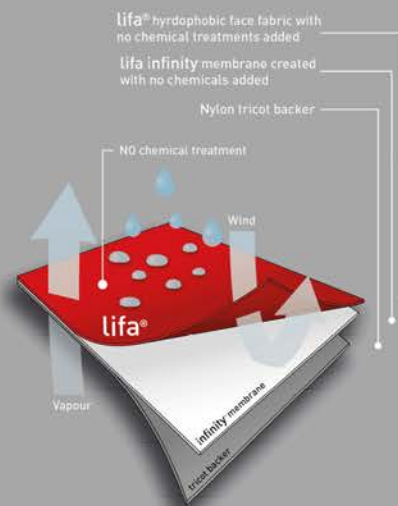

RESPONSIBLE

HOW LIFA INFINITY PRO™ WORKS:

Using LIFA® technology, a proprietary Helly Hansen fiber that is lightweight and hydrophobic, the fully waterproof/breathable membrane and durable water repellent performance are achieved without the use of chemicals. Combining the LIFA INFINITY™ membrane with 100% LIFA® hydrophobic face fabric, LIFA INFINITY PRO™ is a groundbreaking technology, meeting the extreme waterproofness and breathability of HELLY TECH® Professional construction. With everlasting water repellent protection that never needs to be reproofed with chemical treatment after use, LIFA INFINITY PRO™ delivers long-lasting, responsible and superior professional grade performance.

LIFA INFINITY PRO™ FEATURES:

- Helly Tech® Professional
- Professional grade waterproof/breathable performance
- Everlasting water repellent protection
- LIFA INFINITY™ membrane
- LIFA™ hydrophobic fabric
- No chemicals added to create LIFA INFINITY™ membrane
- No chemical treatment added for durable water repellent protection
- No need to reproof garment with chemical treatment after use

lifa infinity pro™

HELOX

Since 1949, Helox has been an important step in Helly Hansens rainwear history. The transition from oil garments to plastic started. The very successful Helox garments made from PVC was launched, giving Helly Hansen a head start on the competition due to extensive material research abroad. The Norwegian delegation all wore Helox during the 1952 Olympic Games in Helsinki.

PU REPAIR KIT

The cabin tradition of Norway means that many old garments are never thrown out, but are instead stashed away at the cabin to avoid hauling clothes back and forth. There is therefore huge potential for providing a simple yet effective product which would bring these garments back to life.

As well as being provided with each new garment, the repair kit will be sold separately encouraging consumers to repair old garments as opposed to buying new ones.

The repair kit can be attached either at the neck loop, on an outside pocket, or on the CF zip. Keeping it separate from the hangtag will draw attention to it.

HELOX

PU REPAIR KIT

HH

1. CUT THE PATCH TO THE REQUIRED SIZE
2. SET IRON TO WOOL SETTING (148°C / 300°F)
3. LAY THE REPAIR PATCH SHINY SIDE DOWN ONTO THE OUTSIDE OF THE DAMAGED AREA.
4. LAY A DISH CLOTH ONTOP OF THE PATCH
5. HOLD THE IRON ON THE DISH CLOTH FOR 15 SECONDS.
6. REMOVE IRON AND DISHCLOTH. THE PATCH SHOULD HAVE FULLY ADHERED TO THE PU.
7. REPEAT THIS PROCESS FROM THE INNER SIDE TO GUARANTEE FULL WATERTIGHTNESS.

lifa®

WARM. DRY. COMFORTABLE.

Launched in the early 1970s, Lifa® is based on a yarn technology that has been tested and developed over the years. The key functions of Lifa® deliver both moisture management and insulation, moving moisture away from the skin, while transporting perspiration to the surface of the fabric, where it evaporates. In 2006 Lifa® was combined with non mulsed Merino wool to create the best performing base layer to date.

Lifa® is a hydrophobic fiber that prohibits the absorption of liquid. The Lifa® fibers are used on the first membrane layer of base layer garments, the layer nearest to the skin. When the first yarn layer is combined with an additional layer with hydrophilic (moisture absorbing) properties, the sweat from the body is moved away from the skin and transported to the second layer, where it is absorbed. This enables the consumer to stay warm, dry and comfortable.

LIFA® is an ultra-light weight base layer fabric that works perfectly in the autumn and winter.

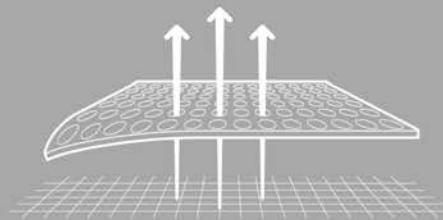

HH LIFA® delivers light insulation and moisture management through its 100% single layer Lifa® fibers.

The Lifa® technology works best when layered under another garment, as the more garments you wear, the further the sweat and moisture will be transported out of the fabric and away from your skin.

HOW LIFA® WORKS

LIFA® stay dry technology moves sweat away from your skin, keeping you warmer for longer

LIFA® ACTIVE is our best moisture management base layer that is great for light insulation all year round. Made from a light-weight, two layer fabric that is excellent in moving moisture away from the skin; it enables the user to feel warm and comfortable.

LIFA® ACTIVE can be worn as a single layer or can be layered under another garment.
